Dr Md Shahidul Islam
Bangladesh Mathematical Society
Professor, Department of Mathematics,
University of Dhaka, Dhaka -1000,
Bangladesh

Dear Dr Md Shahidul Islam

I am pleased to report that our officers have formally accepted the reciprocity agreement between the **Bangladesh Mathematical Society** and the AMS.

An announcement of this agreement will be published in the NOTICES OF THE AMERICAN MATHEMATICAL SOCIETY. You can view our membership benefits by visiting our website at www.ams.org/membership/individual. We hope that you direct your members to these pages for information. I look forward to receiving information about membership in your Society.

Mathematicians in many countries of the world are eligible for "Affiliate" membership in the AMS. Individual dues for those with addresses in these countries (see www.ams.org/membership/individual/mem-develop) are \$16 per year. The agreement just put in place still allows your members to join at that level, if desired.

Please be aware that my initial letter to you, your response, and this answer constitute the agreement between the two societies. There is no certificate or signature needed. Each year in the future, I will contact you to update your information.

If I can be of service to you at any time in the future, please do not hesitate to let me know.

Sincerely,

Megan E. Turcotte
Director of Membership
